Training Workload	Interrogation Load	Cooling Set-points	Maximum Error	RMS Error
Cloud	Nutch	(27 ^{0}C, 5.5 psi)	14.4%	4.4%
Step	Nutch	(27 ^{0}C, 5.5 psi)	16.0%	5.4%
Combined	Nutch	(27 ^{0}C, 5.5 psi)	11.8%	3.9%
HPC	Nutch	(27 ^{0}C, 5.5 psi)	20.8%	9.3%

Being the workload corresponding to a web-crawler , Nutch profile varies rapidly with time. That produces large error with HPC training workload with almost constant amplitude.
